

# SunRise® solar-powered air extraction systems

Harness the natural power of the sun to ventilate your building

A **SunRise® air extraction system** is the natural way to ventilate any building. Solar energy is used to drive the efficient fan, providing a system that requires virtually no maintenance and is free to run. The whisper-quiet motor works effortlessly to extract warm, stale or damp air from the building, allowing fresh air to be drawn in to replace it.

**SunRise® systems** can be used in virtually any building type including residential, work spaces, agricultural, botanical, retail, manufacturing and storage facilities. In fact, any building that needs a flow of fresh air.

With a five-year guarantee and readily available, easy to replace parts, a **SunRise® solar-powered system** could be the ventilation system you've been looking for. Contact us today for information.

# SunRise<sup>®</sup> solar-powered air extraction systems

SunRise systems can be roof or wall-mounted to suit your building, are available in four different power specifications. Systems can also be supplied with additional remote solar panels to maximise the available solar resource.

Some models are also available with adjustable solar panels for increase solar capture.

Systems can be used as stand-alone units or used in multiples for larger areas.

Systems can be combined with ducting and grilles to provide a wide range of ventilation solutions for virtually any building.

## SunRise 850

11 Watt fan  
For areas up to 120sqm  
Size 550 x 610 x 180mm

## SunRise 1050

15 Watt fan  
For areas up to 130sqm  
Size 550 x 610 x 180mm

## SunRise 1250

20 Watt fan  
For areas up to 150sqm  
Size 610 diameter x 180mm

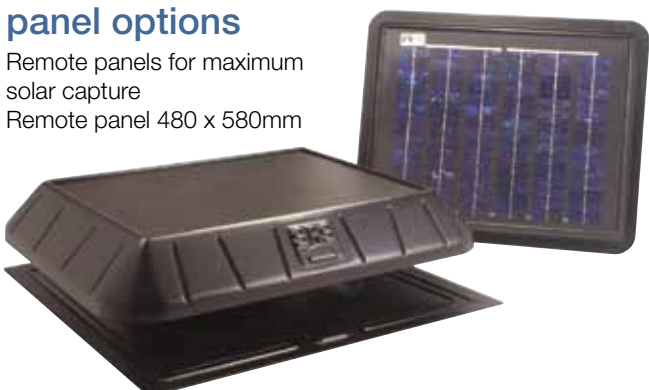

## SunRise 1600

30 Watt fan  
For areas up to 200sqm  
Size 550 x 610 x 180mm

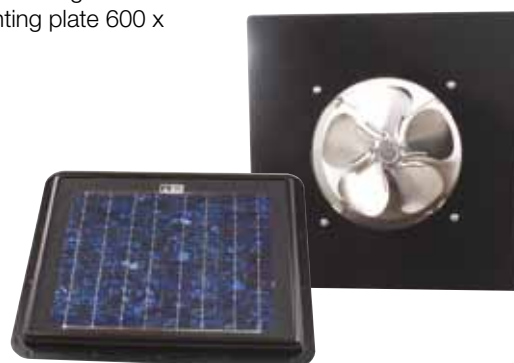

## SunRise remote panel options

Remote panels for maximum solar capture  
Remote panel 480 x 580mm

## SunRise gable-end System

For wall mounting and internal use.  
Fan mounting plate 600 x 600mm.

SunRise systems are distributed in the UK by **Syneco Limited**

Suite 138/A The i:Centre  
Howard Way  
Newport Pagnell  
MK16 9PY
